

WE MAKE « SPECIALS » EVERY DAY

Because we are the **only foamboard manufacturer** in the UK who can make to measure !

During this troubled Corona virus period, the **Airplac[®] foam board factory** in Leigh on Sea is open every day making top class foamboard panels for the Sign and Display market in the UK.

We can manufacture foamboard panels to exactly the dimensions that you require. This means less waste of raw material and a more economical solution for your display needs.

Avail of our “Made to measure” service, and manage your workforce so that they are doing what they do best – printing great displays. The MOQ is one full pallet.

You need a Quotation ?

Ask your merchant to call us with your precise specifications and we will provide a price within 1 hour.

You need a lead-time ?

Our lead-times are short because we manufacture to order. When you request a quotation, you will also get a lead-time.

Optimising the transport costs ?

As often as possible, we cut the pallet to correspond with the size of panel that you have ordered. This reduces the transport costs.

Carbon footprint optimisation ?

By manufacturing Just in Time, Just what you require, Airplac[®] foamboard minimises the carbon footprint of the production and logistics processes.

Made in the UK :

we have been manufacturing foam board in the UK for almost 20 years. Our production capacity enables us to offer the most competitive prices for Specials cut to size directly during the manufacturing process.

For more information about what Airplac[®] foamboard in the UK can do for you, please contact your regular merchant.
